COMPANY OVERVIEW

Traffix is a leading Temporary Traffic and Events Management Group. Operating from four strategically positioned depots covering Central England, we provide a specialist range of quality-driven Traffic and Event Management services for complex infrastructure schemes, construction projects, highway maintenance and high-profile events.

We recognise the part we can play in accelerating the transition to a lower carbon future. Our close partnerships with our clients and supply chain are devoted to building sustainable working practises for the benefit of future generations.

DIFFERENTIATORS

Our continual drive for improvement is what sets us apart. For example, we were the first TM company to introduce body cams onto our operative's high vis for theirs and the public's safety. We were the first Midlands based TM company to receive the FORS Bronze Award and we are holders of the Armed Forces Covenant Gold Award in recognition of the importance we place in helping ex service personnel find new careers in civilian life.

ACCREDITATIONS

Traffix is the proud recipient of the following awards:
NQA ISO 14001:2015, ISO 9001: 2015, ISO 45001: 2018, CHAS Accreditation, Constructionline Gold, FORS Bronze Award, Builder's Profile Premium Membership, Avetta Membership, Armed Forces Covenant Gold Award, TMCA, CECA, PQS, Everything FM, Solihull & Greater Birmingham Chamber of Commerce.
